Allowable Subject Matter

1. Claims 1-5, 7-10, 12-18, 20-22 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art taken singly or in combination does not teach or suggest, an apparatus for processing data streams among other things, comprising a composite circuit to perform a spatial combination of the first output data stream and the second output data stream, wherein the spatial combination is a bitwise logical operation comprising one of (i) an exclusive OR operation, (ii) an OR operation, and (iii) a combination of AND operations and multiplication operations.

The closest prior art, reference Fujimoto (U.S. Patent No. 5,912,710) teaches an image display control apparatus receiving video and graphics data on a bus, a first data modification circuit to generate a first output data stream and a composite circuit for outputting the composite data stream from the first output data stream and a second data stream on the bus.

However, reference Fujimoto does not teach the bitwise logical operation mentioned above.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
